Mr. David Doss
GeoX, Inc,

Dear Mr. Doss,

Thank you for your attention to detail, diligence, and professionalism that was displayed throughout the course of our project at CSU-East Bay. You and your team were significant in overcoming numerous engineering and logistical obstacles which were outside of our control during the pre-construction phase of the project, and that spirit of teamwork carried through to the end of the project. Despite these setbacks, GeoX installed an aesthetically pleasing and structurally sound retaining wall with little impact to the owner or other work ongoing in the area.

GeoX was an integral part in the successful completion of our project, from planning through execution, and Silverado looks forward to the opportunity to work together in the future.

Sincerely,

Andrew Baird
Project Manager
